(15-20 minutes maximum)

- To help us understand the impact of using Course Progress Tracker in your course, can you summarize your observations?
- Describe any positive aspects of using Course Progress Tracker in your course
- Did the tool itself enrich the positive experience of your course?
- Do you think the idea of a tracking progress within a course can be more effective in the classroom with a different solution?
- Describe what that solution might look like (if you know), or improvements you think would improve the impact.
- Describe any negative experiences
- What additional feedback did you hear or observe concerning student behavior with the Course Progress Tracker?
- What additional feedback do you have from the faculty experience concerning Course Progress Tracker?
